

A Fool Speaks Out: the case for Therapeutic Clowning in healthcare

Presentation description:

This interactive presentation is designed for anyone curious to know more about the art of Therapeutic Clowning in healthcare.

Award-winning clown artist and instructor Helen Donnelly shares her lengthy and diverse experience serving as a professional Therapeutic Clown in healthcare. She unveils the method behind the foolishness, highlighting the benefits to clients, families, staff and to the artists themselves through storytelling and video. An overview of the history, training and how clowns collaborate with fellow clinicians will also be revealed. Bring your curiosity and your questions to this interactive and unique presentation.
